

# **A Qualitative and Quantitative Approach to Impact Evaluations of International Development Interventions: The Case of Heifer International in 20 Countries, 2005-2009**

Presentation by

Thomaz Chianca, PhD, COMEA Evaluation Ltda.

Michael Scriven, PhD, WMU Evaluation Center

Rienzzie Kern, MS, Heifer International

# Contents

- About Heifer International
- The challenge presented to WMU
- Evaluation questions, methodology, fieldwork and reporting
- Strategies and challenges for coordinating impact evaluations within a large international NGO

# Heifer Project International

Help Hungry Families Feed Themselves

“Teach a man how to fish” has been the practical, but powerful philosophy behind Heifer since 1944

OUR WORK

GET INVOLVED

GIVE

LEARN

# The challenges for WMU

- Evaluation of the impact of complex and multifaceted poverty reduction, rural development and environmental protection projects supported by HPI in several countries
- No baseline data
- Limited budget
- Limited timeframe

# Evaluation Questions

- Impact on:
  - poverty and the environment
  - Institutional development of local partner agencies
  - gender equity
- Relevance of strategy re to the needs
- Efficacy (achievements vs. objectives)
- Efficiency (results vs. input/cost/timeliness)
- Sustainability of benefits

# 20 countries and 155 projects visited

2005

South-Central USA (8)  
Peru (5)

2006

Thailand (13)  
Nepal (6)  
Albania (5)

2007

China (9)  
Kenya (8)  
Tanzania (11)  
Cameroon (9)

2008

Cambodia (8)  
Vietnam (9)  
Ghana (8)  
Honduras (10)  
Guatemala (14)

2009

Indonesia (8)  
Philippines (8)  
Armenia (8)  
Baltic States (8)  
- Estonia  
- Latvia  
- Lithuania

# Professionals involved

- 88 hired by WMU:
  - 26 external evaluators (EC staff, IDPE students and faculty, and external consultants)
  - 22 overseas researchers (ATG)
  - 40 local interpreters
- More than 100 HPI staff from country offices and HQ

# The Heifer Hoofprint Model

Impact attributed  
beyond reasonable  
doubt to Heifer:

Above the ground

On the ground

Below the ground

# Impact and more...

- **KEC** - Key Evaluation Checklist (by Scriven)
- **Impact**: expected & unexpected, positive & negative
- **Process**: ethicality, fidelity, reach/coverage, scientifically optimal, etc.
- **Cost**: money & non-money, direct & indirect, etc
- **Comparisons**: different ways to achieve similar results
- **Generalizability**: sustainability + exportability

## 4 GOALS

G.1. Food/Income Security

G.2. Environmental Integrity and Restoration

G.3. Educ/Empwmt for Action in a Just/Sust World

G.4. Policies/Systems changed to support G1

## 7 INDICATORS

I.1. Food Security

I.2. Improved Environment

I.3. Net Income

I.4. Improved Gender Equity (includes youth)

I.5. Organizing and Action for Social Change

I.6. Strengthening Communities

I.7. Policy Change

## 6 VALUE GROUPS

**V1. Basic Needs**

**V2. Livestock** Care & Management

**V3. Environment** Care & Management

**V4. Education** for Just & Sustainable World

**V5. Empowerment** of Family & Community

**V6. Systems & Policy** Improvement

## 12 CORNERSTONES

C.1. Passing On The Gift

C.2. Accountability

C.3. Sharing & Caring

C.4. Sust & Self-Reliance

C.5. Improved Animal Mgm

C.6. Nutrition & Income

C.7. Gender & Family Focus

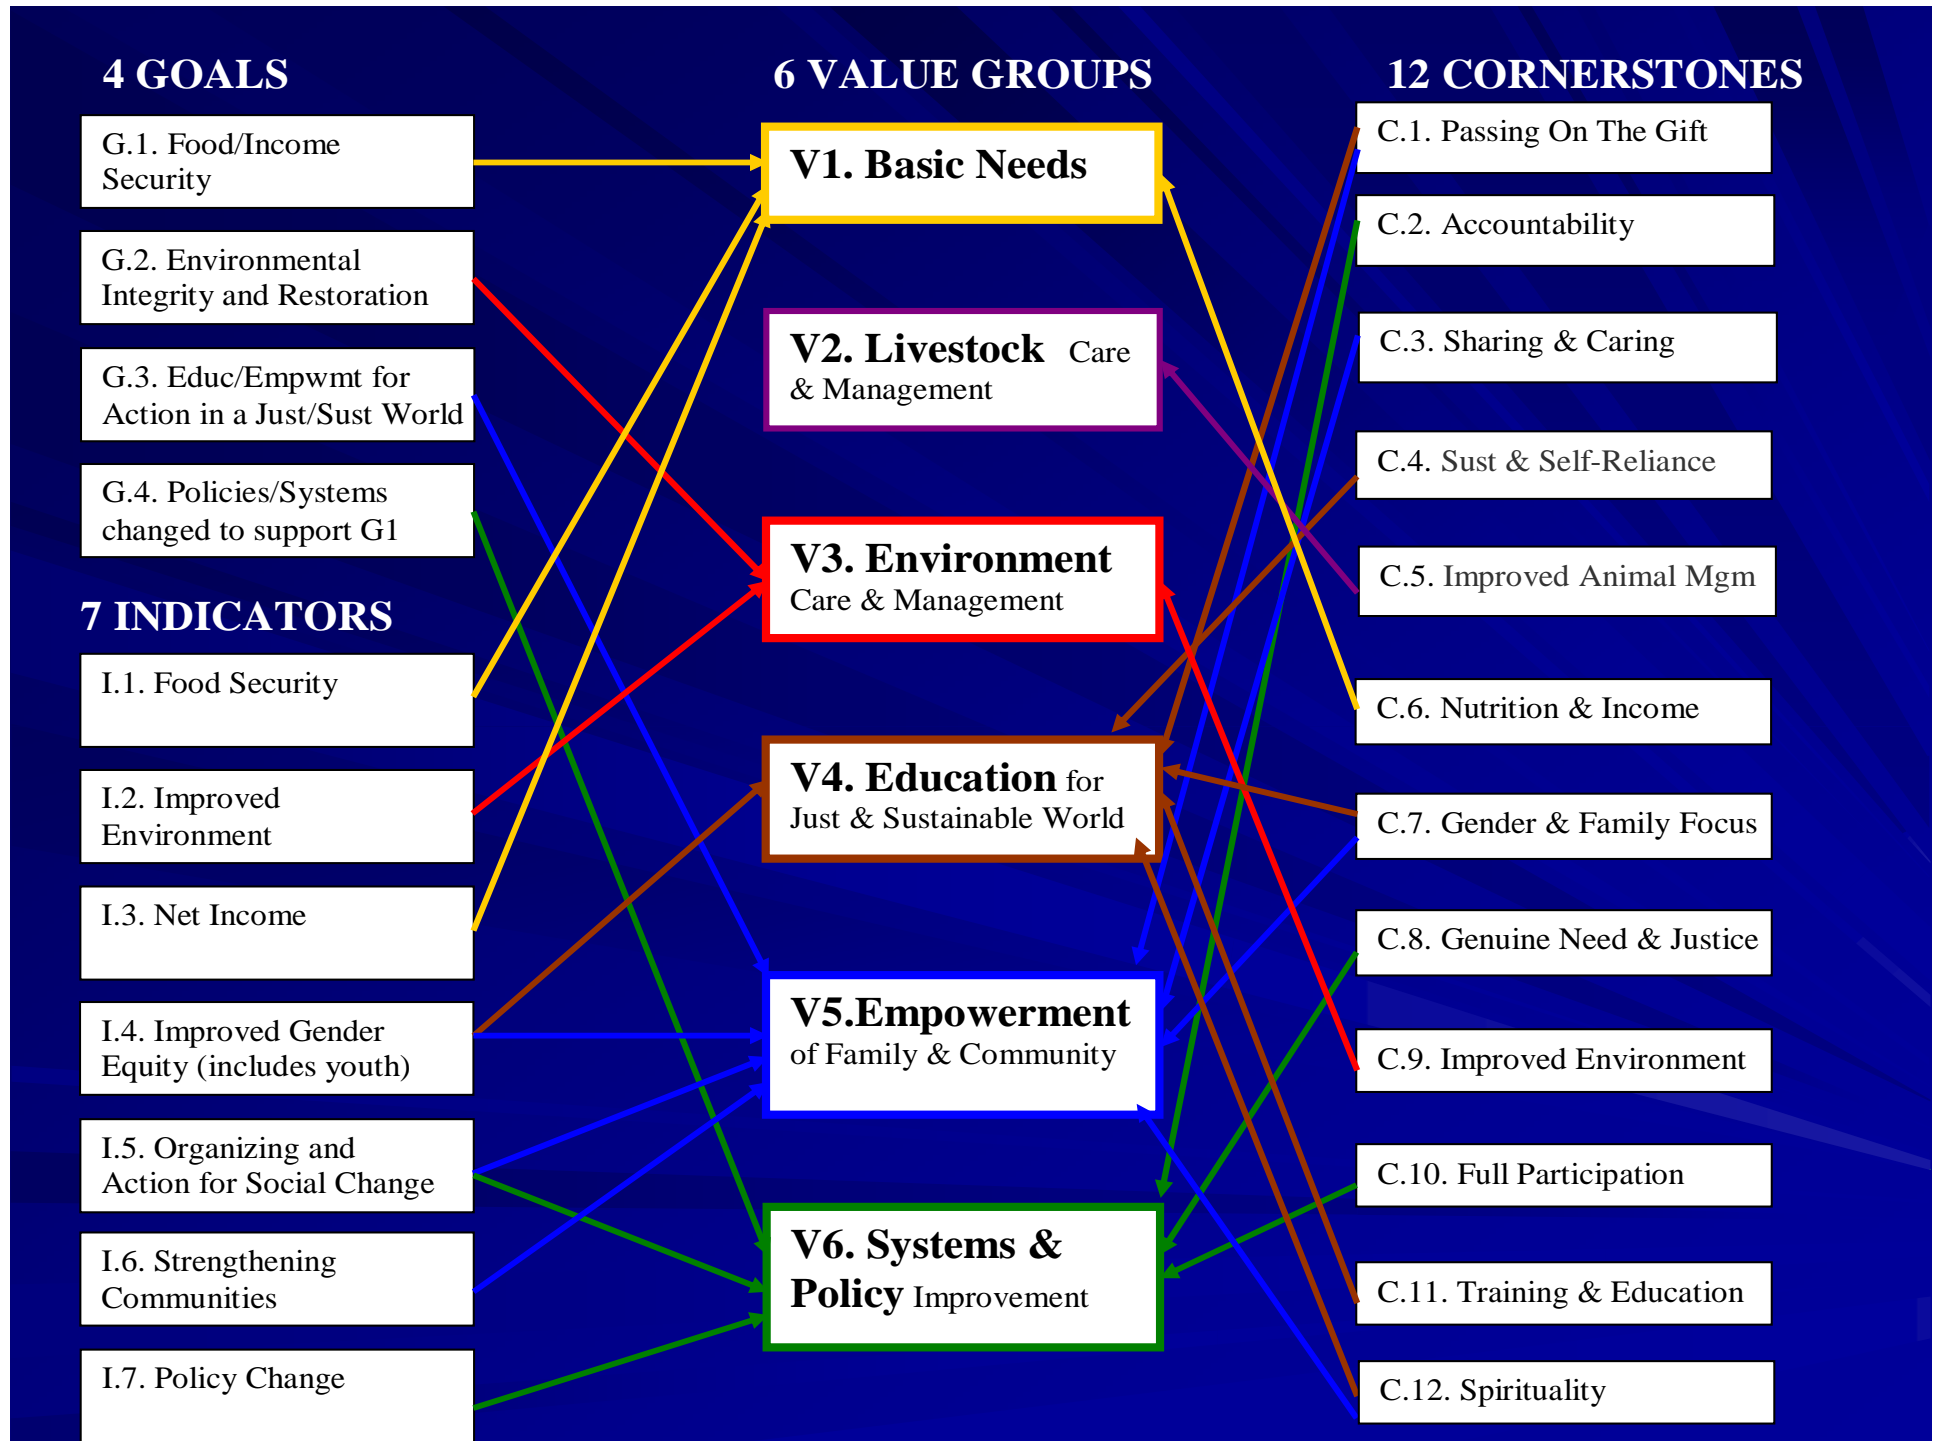

C.8. Genuine Need & Justice

C.9. Improved Environment

C.10. Full Participation

C.11. Training & Education

C.12. Spirituality

# Fieldwork strategies

- 21 days of two evaluators (sr & jr) in each country (included travel, briefing and debriefing)
- Site visits to 8 projects (about 2 days per project) in each country (best representation of efforts)
- 2-day training seminar at WMU for external evaluators

# Data collection in each project

1. Interview with local agency (project holder)
2. Interview with 8 participating families
3. Interview with 2 non-participating families
4. Group meeting open to all
5. Focus group with community leaders
6. Interview with government officials (whenever possible)

# The Above the Ground Study

- ❑ Search for impacts (positive and negative) at regional, national and international levels
- ❑ Conducted by independent researcher based in the country
- ❑ Interviews with 10 to 12 representatives of other agencies working in the same geographic areas or with the same content areas as HPI

<b>Value Group</b>	<b>Subvalues (criteria)</b>
Meeting Basic Needs (115)	<ul style="list-style-type: none"> <li>▪ Year-Round Adequate and Nutritious Food (25)</li> <li>▪ Adequate, Safe Water Year-Round (25)</li> <li>▪ Adequate Shelter/Housing (25)</li> <li>▪ Sustainable Income and Assets (25)</li> <li>▪ Control and Reduction of Life-Threatening Diseases (15)</li> </ul>
Livestock Care and Management (50)	<ul style="list-style-type: none"> <li>▪ Livestock in Good Condition (10)</li> <li>▪ Animal Shelters in Adequate Condition (10)</li> <li>▪ Appropriate Animal Healthcare (8)</li> <li>▪ Family with Adequate Knowledge, Skills, and Attitude (KSA) Regarding Animal Care (10)</li> <li>▪ Proper Food and Water (6)</li> <li>▪ Appropriate Livestock (6)</li> </ul>
Environment Care and Management (50)	<ul style="list-style-type: none"> <li>▪ Appropriate Land Management (25)</li> <li>▪ Appropriate Waste Management (25)</li> </ul>
Education For a Just and Sustainable World (50)	<ul style="list-style-type: none"> <li>▪ Adequate and Equal Access to Basic Education (25)</li> <li>▪ Quality and Needs Basis of Training (25)</li> </ul>
Empowerment of Family and Community (50)	<ul style="list-style-type: none"> <li>▪ Full Participation (10)</li> <li>▪ Gender Equity and Children's Rights (10)</li> <li>▪ Community Spirit (10)</li> <li>▪ Self-Reliance (10)</li> <li>▪ Appropriate Local Community Procedures/Sets of Rules (10)</li> </ul>
Impact on Larger Community (50)	<ul style="list-style-type: none"> <li>▪ Impact on Regional Communities (16)</li> <li>▪ Impact on Country (16)</li> <li>▪ International Impact (18)</li> </ul>

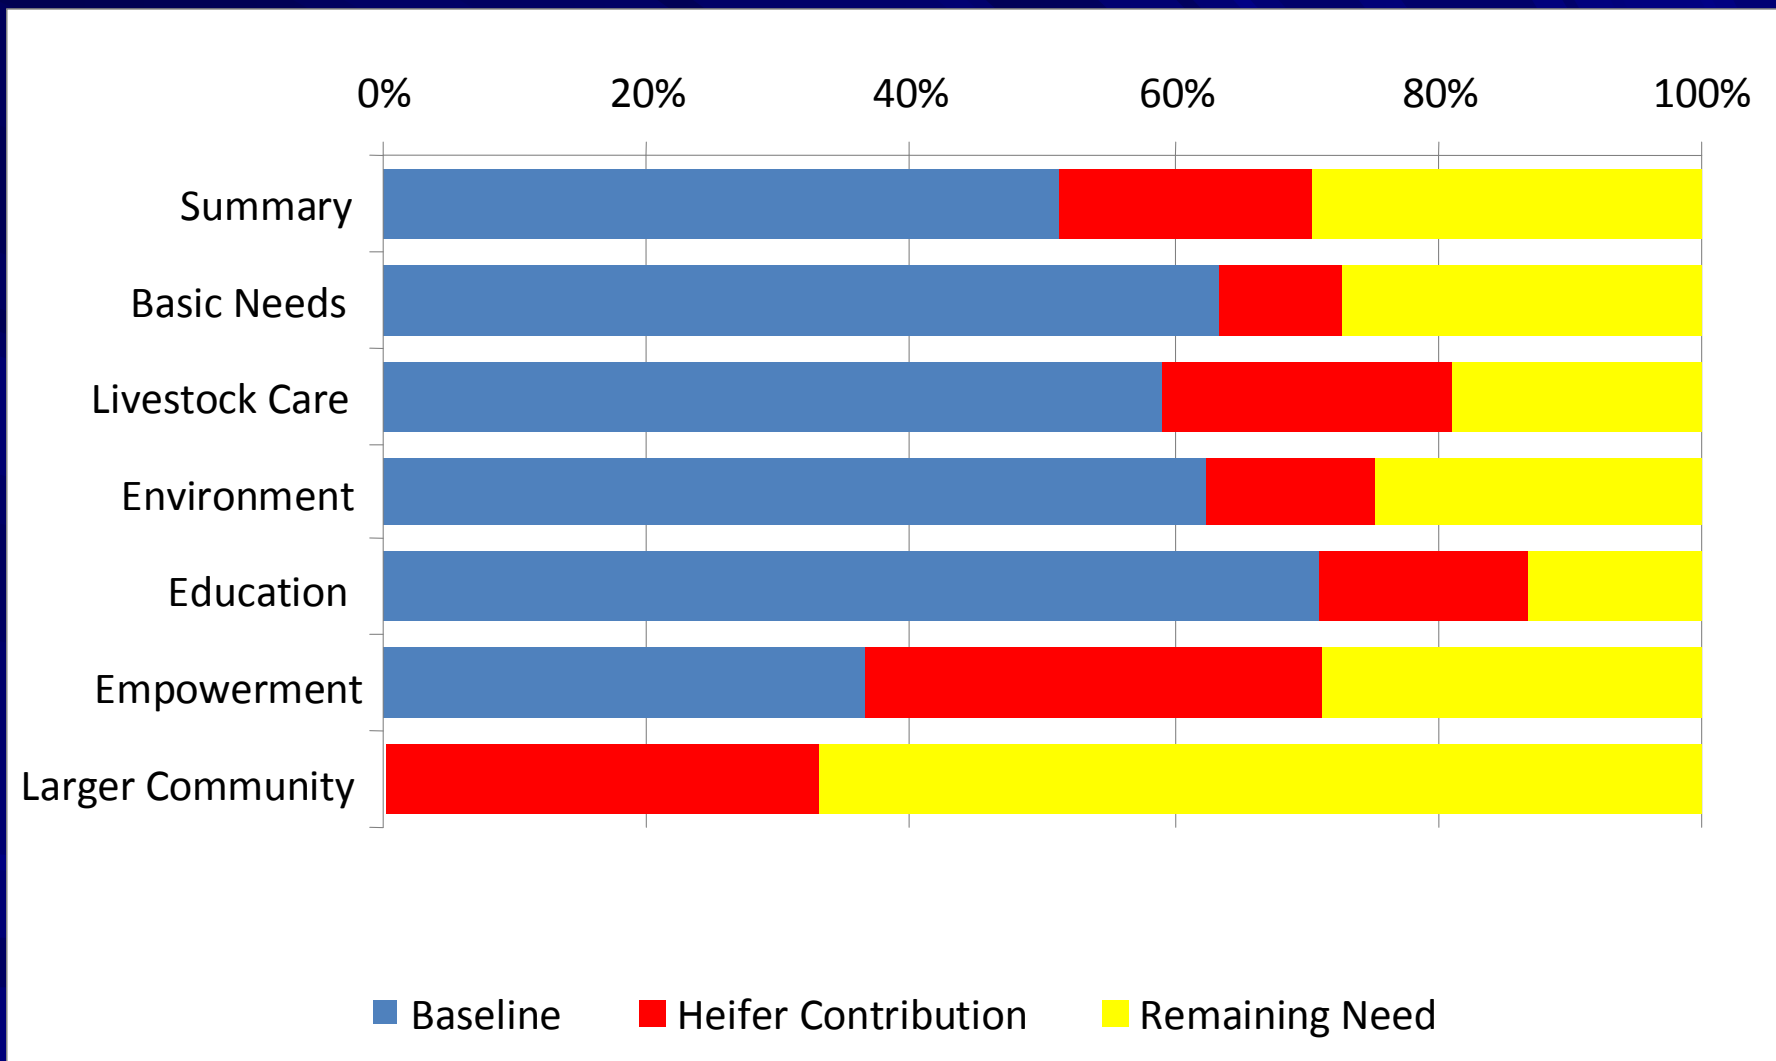

# Scoring on paper

Criteria	Indicators	Scale <sup>1</sup>
		0 1 2 3 4 5
<b>Value-Group 1: Meeting Basic Needs (115 points)</b>		<b>Subtotal G-V 1</b>
1.1. Year-Round, Adequate and Nutritious Food (25)	• Staples: corn, rice, beans, potatoes (5) .....	
	• Supplements: vegetables, milk, fruits (5) .....	
	• Protein: chickens, pigs, fish, cattle, goats, sheep (5) .....	
	• Use of a good crop strain for area (5) .....	
	• Adequate storage procedures (5) .....	
	<i>Subtotal Criteria</i>	
Comments <sup>2</sup> :	<div> <div>/ = Baseline</div> <div>/ = Current situation</div> </div>	
1.2. Adequate Safe Water Year-Round (25)	• Access to water (inside the house, nearby, far away) (5) .....	
	• Sufficient amount for drinking, washing, crops (5) .....	
	• Water quality (demonstrably bad vs. tested high quality) (5) .....	
	• Year-round supply—river, well, spring, storage (5) .....	
	• Keeping livestock off drinking supply (5) .....	
	<i>Subtotal Criteria</i>	
Comments:		

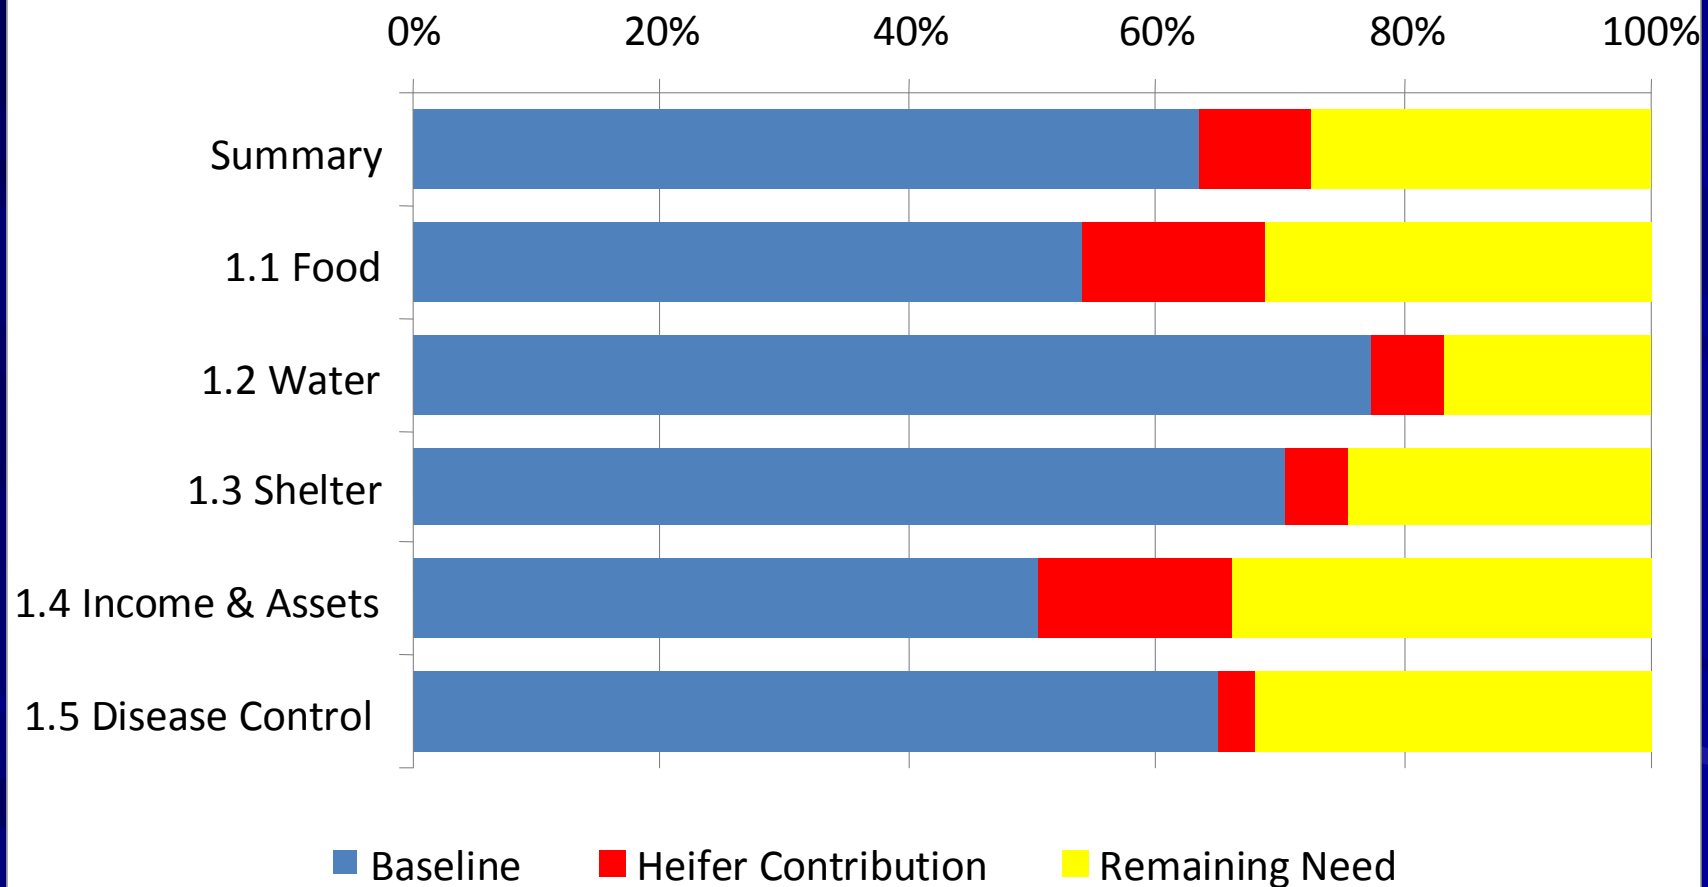

# Graphic representation of impact

**Figure 1.** HPI Overall Performance on the Six Value Groups

# Graphic representation of impact II

## Value Group 1: Meeting Basic Needs (by Criteria)

**Figure 2.** HPI Performance on Value Group 1: Meeting Basic Needs

# Some other important features

- External metaevaluation
- Passing on the evaluation capacity
- Cost-effectiveness study

# Some limitations

- Reconstruction of baseline
- Small samples
- Limited control families (maturation)
- Not always can have quality control of interpreters and ATG researchers
