# EMBRACING COMPLEXITY AND COLLABORATION IN A MULTI-SITE EVALUATION:

## Insights From a Randomized Control Trial on Youth Mentoring

Manolya Tanyu and Nicholas Read, American Institutes for Research

Natalie Kaiser and Linda Fuller, Aurora Youth Options

Susan Duncombe and Megan Maes, Denver Urban Scholars

---

## SESSION OVERVIEW

**1 WHEN COMPLEXITY REQUIRES FLEXIBILITY: THE EVOLVING NATURE OF A LARGE-SCALE, SITE-BASED MENTORING EVALUATION**

**2 "WOW, THAT'S A LOT OF DATA!": USING A WEB-BASED DATA SYSTEM FOR LARGE-SCALE COLLABORATIVE DATA COLLECTION, MANAGEMENT, AND REPORTING**

**3 "COULD YOU FOLLOW UP JUST ONE MORE TIME": WORKING WITH PRACTITIONER PARTNERS TO ACHIEVE HIGH RESPONSE RATES FOR FOLLOW-UP SURVEYS IN A LARGE-SCALE, SITE-BASED EVALUATION PROJECT**

---

## ABOUT THE PROGRAM

# MENTORING ENHANCEMENT DEMONSTRATION PROGRAM (MEDP)

### OJJDP

Grantees funded in 2012  
by the U.S. Department of  
Justice, Office of Juvenile  
Justice and Delinquency  
Prevention (OJJDP)

### COLLABORATION

10 collaboratives, made  
up of 32 total mentoring  
agencies across 13 states  
funded for 3 years

### MENTORING

1-to-1 and group-based  
youth-adult mentoring in  
community and school  
settings; incorporating  
teaching and/or advocacy

## Mentoring Enhancement Demonstration Program (MEDP) Sites

The map displays 32 MEDP sites across the United States, each marked with a numbered icon. The icons are color-coded: blue diamonds (1-5), red triangles (6-10), green pentagons (11-15), orange circles (16-20), yellow squares (21-25), and green circles (26-32). The sites are distributed across various states, including Washington, Oregon, California, Nevada, Idaho, Utah, Arizona, New Mexico, Texas, Oklahoma, Kansas, Missouri, Illinois, Indiana, Michigan, Ohio, Pennsylvania, New York, Maryland, Virginia, North Carolina, South Carolina, Georgia, Florida, and Hawaii. Major cities and geographical features are labeled on the map.

Site Number	Location	Icon Shape and Color
1	Phoenix	Red Triangle
2	Phoenix	Red Triangle
3	Phoenix	Red Triangle
4	Denver	Red Triangle
5	Denver	Red Triangle
6	Denver	Red Triangle
7	Honolulu	Orange Circle
8	Honolulu	Orange Circle
9	Honolulu	Orange Circle
10	Columbus	Orange Circle
11	Indianapolis	Orange Circle
12	Louisville	Orange Circle
13	Chicago	Orange Circle
14	New Orleans	Yellow Square
15	New Orleans	Yellow Square
16	New Orleans	Yellow Square
17	Detroit	Yellow Square
18	Detroit	Yellow Square
19	Detroit	Yellow Square
20	El Paso	Green Pentagon
21	El Paso	Green Pentagon
22	El Paso	Green Pentagon
23	New York	Green Circle
24	Washington	Green Circle
25	Washington	Green Circle
26	Phoenix	Blue Diamond
27	Salt Lake City	Blue Diamond
28	Salt Lake City	Blue Diamond
29	San Francisco	Blue Diamond
30	San Francisco	Blue Diamond
31	San Francisco	Blue Diamond
32	San Francisco	Blue Diamond

## MEDP GOALS

Improve the effectiveness of mentoring programs by supporting collaborations of qualified, established mentoring program sites

Promote and support systematic implementation of advocacy or teaching functions into mentors' roles to improve youth outcomes

---

## ABOUT THE PROGRAM

# MEDP ENHANCEMENT MODEL

MATCHING YOUTH AND MENTORS BASED ON NEEDS, SKILLS, EXPERIENCES, AND INTERESTS

INITIAL AND ONGOING TRAINING FOCUSED ON ADVOCACY AND/OR TEACHING (ENHANCEMENTS)

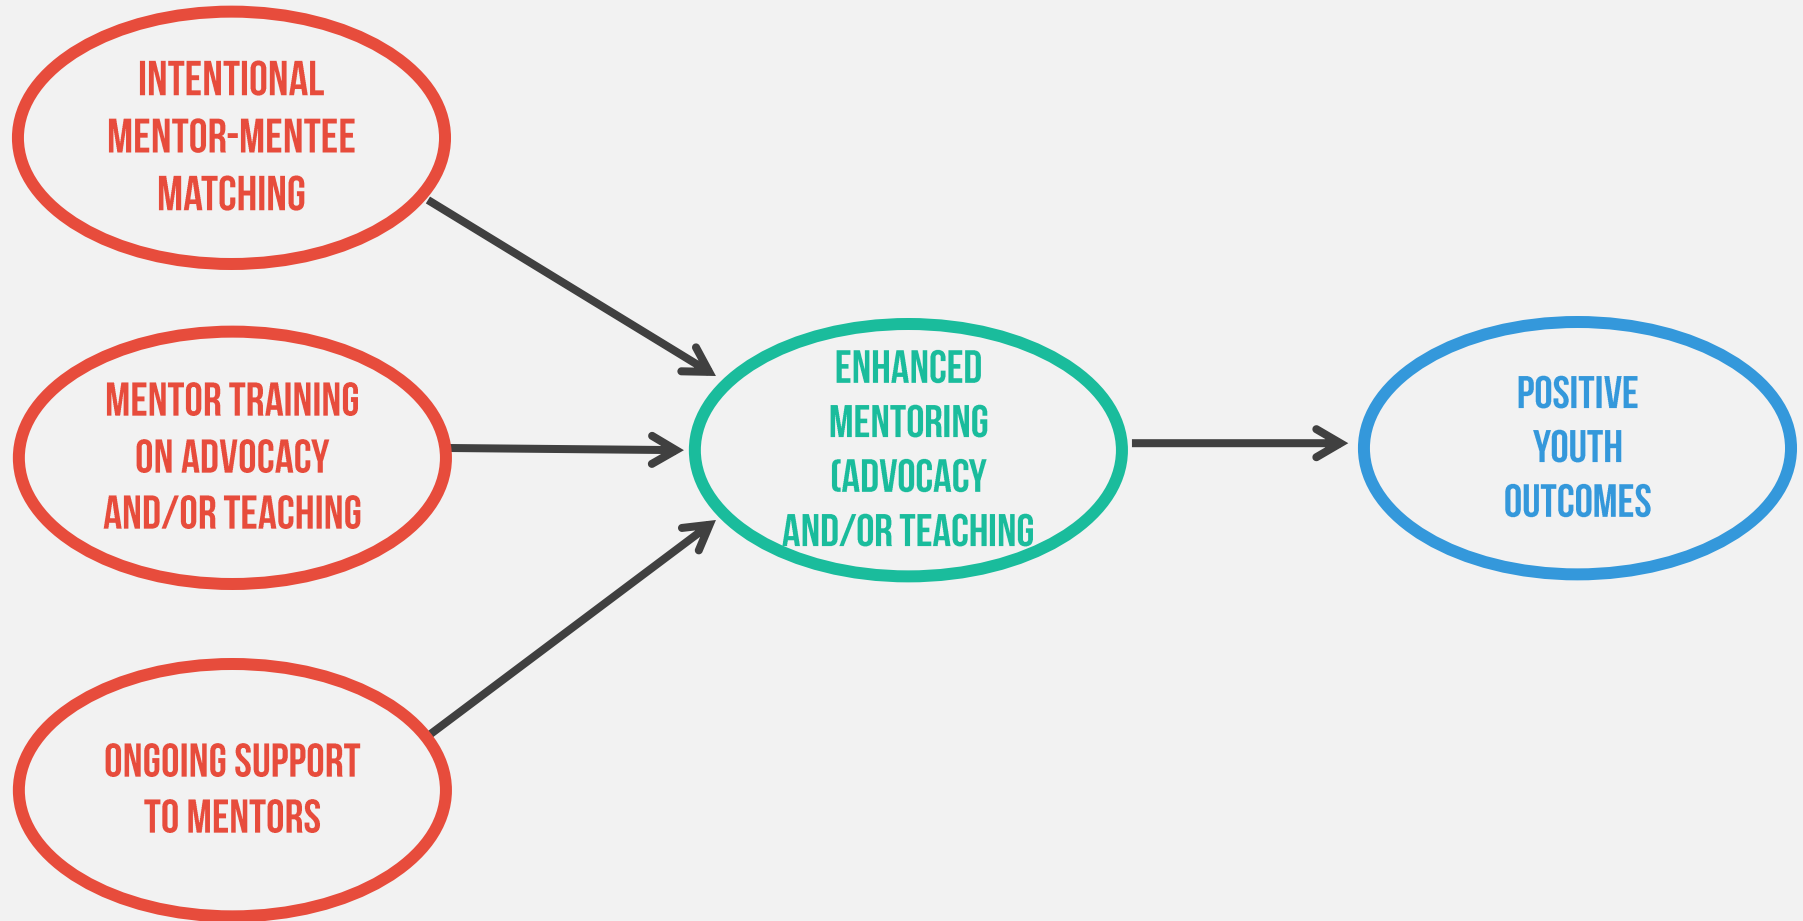

ONGOING MENTOR SUPPORT FOCUSED ON ENHANCEMENTS

## INFORMED BY RESEARCH

The grantee solicitation drew on the 2011 study by DuBois, et. al., *How Effective are Mentoring Programs for Youth? A Systematic Assessment of the Evidence*

## MEDP THEORY OF ACTION AND CHANGE

## EVALUATION DESIGN

### CRITERIA SET BY OJJDP:

Five-year evaluation

Experimental design with two groups

Random assignment at the youth and mentor level

### ELEMENTS PROPOSED BY RESEARCH TEAM:

Evaluability assessments

Mixed-methods data collection

Multiple data collection points (baseline, 12 months, 18 months)

Multiple data sources (staff, mentor, youth, parent/caregiver)

# RESEARCH QUESTIONS

Do program's enhancements improve youth outcomes and reduce delinquency?

What are the mentoring program enhancements and how are they distinguished from standard practices?

To what extent are study participants exposed to the program enhancements?

To what extent are the program enhancements implemented as intended?

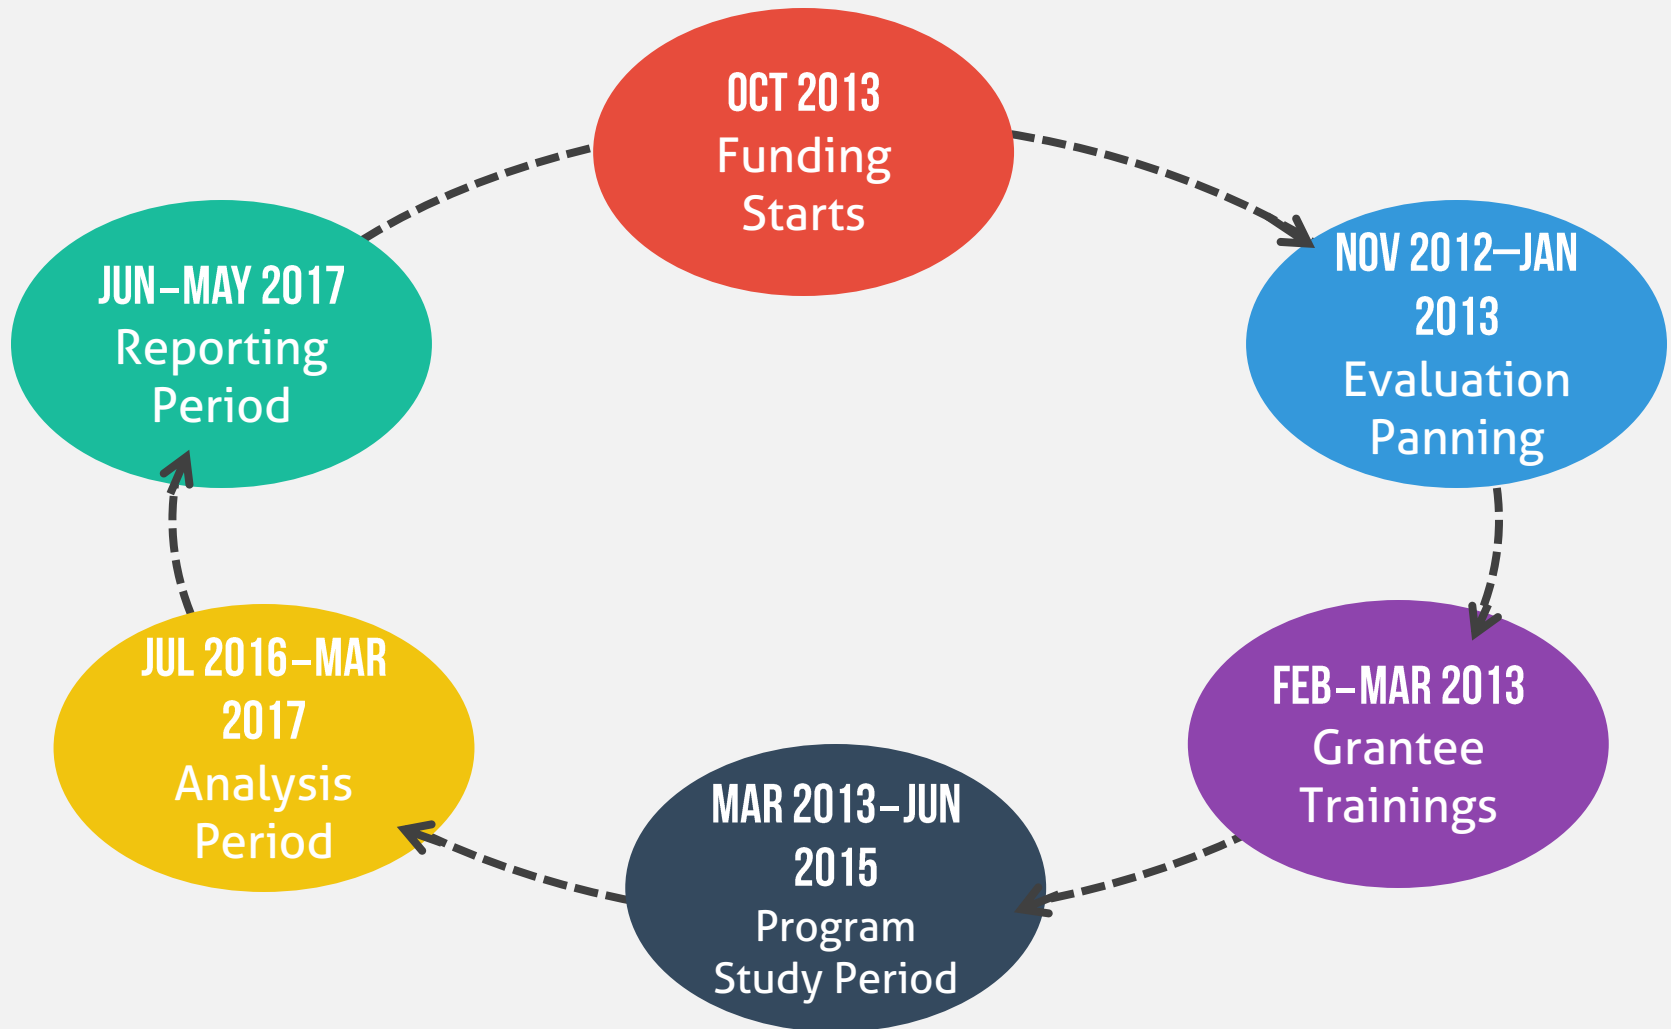

To what extent do mentors incorporate teaching and/or advocacy into the mentoring role?

What affects implementation of enhancements?

What resources and supports are required to implement enhancements?

## EVALUATION TIMELINE

# WHEN COMPLEXITY REQUIRES FLEXIBILITY: THE EVOLVING NATURE OF A LARGE-SCALE, SITE-BASED MENTORING EVALUATION

---

WHEN COMPLEXITY REQUIRES FLEXIBILITY

# EVALUATION APPROACH

## DEVELOPMENTAL EVALUATION (DE)

DE suits the complex and dynamic context of MEDP—a new initiative with multiple stakeholders and sites.

While there is a client-approved evaluation plan, DE allows for adaptations as the context evolves.

The evaluation informs the intervention.

The evaluator's role is to support the decision-making processes as part of ongoing program implementation.

---

WHEN COMPLEXITY REQUIRES FLEXIBILITY

# UNDERSTANDING THE SETTING

## GETTING TO KNOW OUR STAKEHOLDERS TO DEVELOP AN EVALUATION PLAN

Review 10 grantee proposals

Administer/analyze survey on sites' evaluation skills and experience

Conduct grantee in-person training

# UNDERSTANDING THE SETTING

## BENEFITS OF GETTING TO KNOW OUR STAKEHOLDERS

Identified changes needed to the randomization process

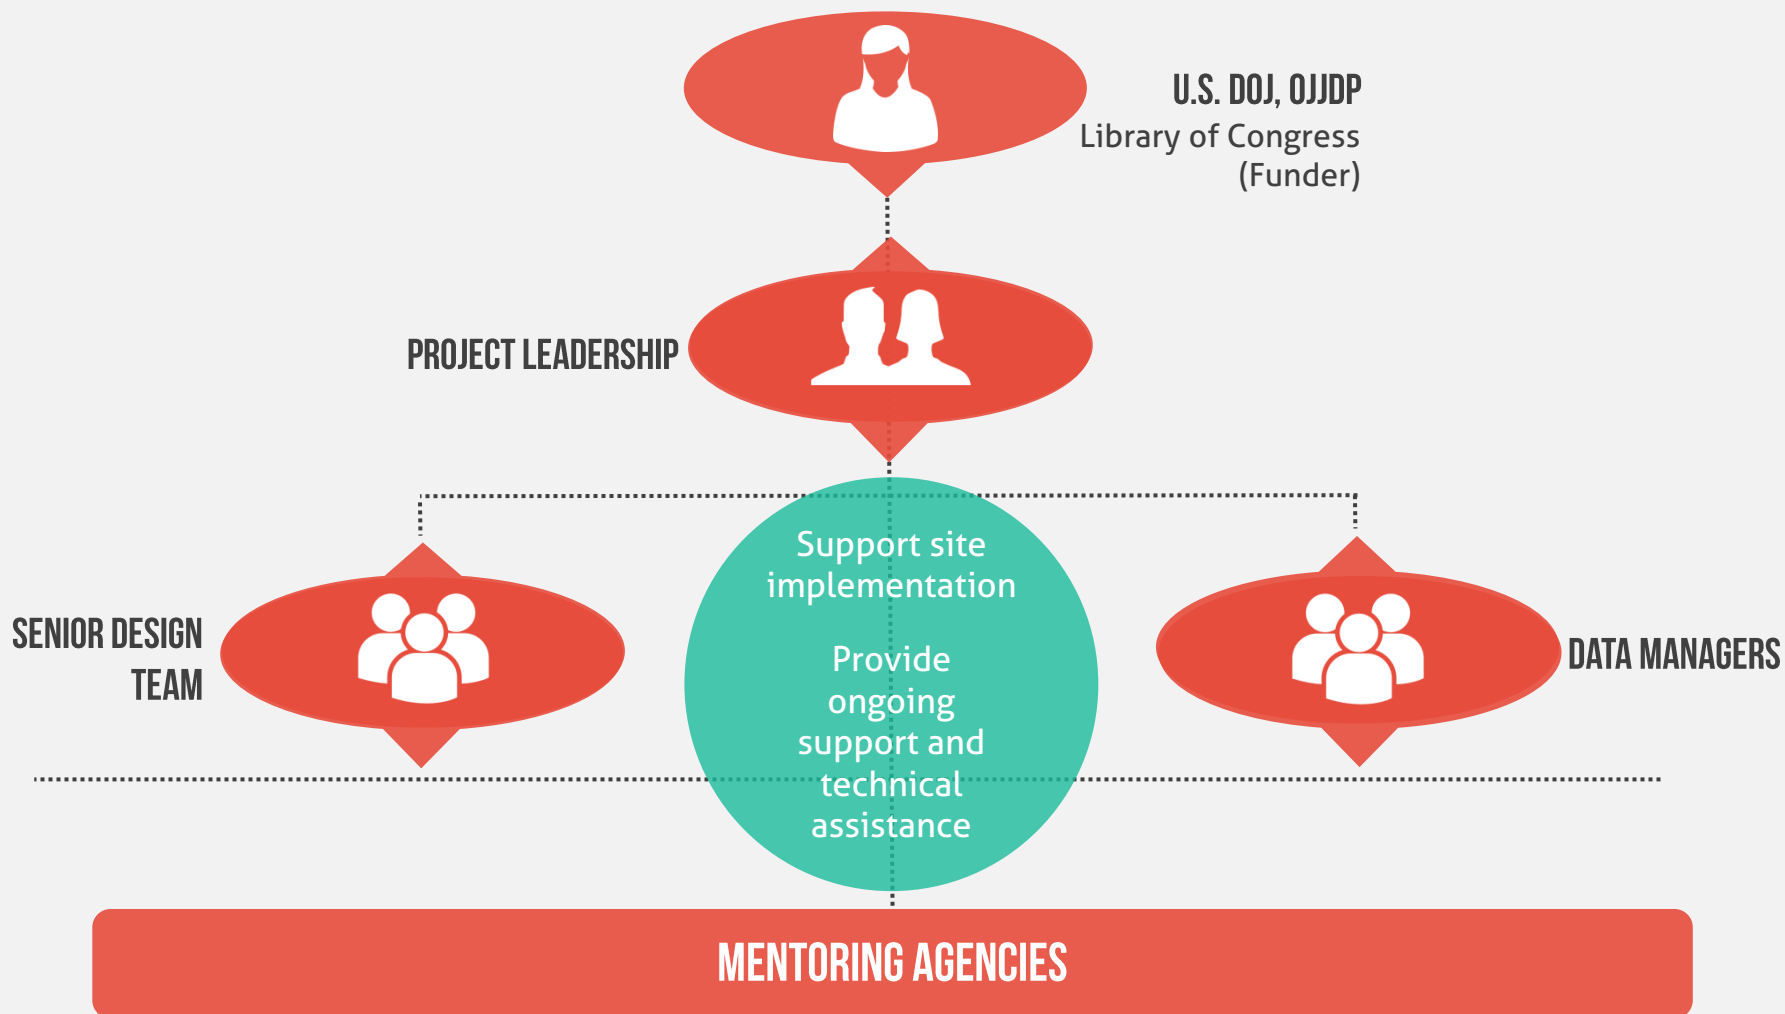

Identified unplanned data collection needs (e.g., online vs. paper surveys)

Identified available data collection tools (some programs have existing data collection system that can assist evaluation activities)

Identified evaluation capacity at each site and supports needed

WHEN COMPLEXITY REQUIRES FLEXIBILITY

## EVALUATION TEAM STRUCTURE

WHEN COMPLEXITY REQUIRES FLEXIBILITY

# BUILDING LOCAL CAPACITY

## CONSULTATION

By mentoring experts to support program implementation

## INDIVIDUALIZED SUPPORT

Ongoing check-in calls, emails, and hands-on training and technical assistance

## NEWSLETTER

Bi-weekly communication to share evaluation progress, highlight programs, identify data gaps and issues, and share mentoring resources

## WEBINARS

Broadcast to and archived for all sites, typically prior to study milestones

## "HOW-TO" GUIDES

To support sites in data collection and reporting

## LESSONS LEARNED FROM DE (SO FAR)

Strong understanding of contextual factors **informs needed adaptations to evaluation**

Extensive time spent on technical assistance **supports evaluation rigor and quality**

High level of support to sites benefits the intervention **but is a demanding process for the evaluation team**

**"WOW, THAT'S A LOT OF DATA!": USING A WEB-BASED DATA SYSTEM FOR LARGE-SCALE COLLABORATIVE DATA COLLECTION, MANAGEMENT, AND REPORTING**

WOW, THAT'S A LOT OF DATA

32 AGENCIES

2,400 MATCHES

EACH COMPRISED OF

75 MENTORS

(APPROX. 60 DATA POINTS)

75 YOUTH

(APPROX. 80 DATA POINTS)

168,000 DATA POINTS

That's a lot  
of data!

WOW, THAT'S A LOT OF DATA

## THE EVOLUTION OF DATA COLLECTION

*THEN*

*NOW*

**EXCEL**

AIR-created, spreadsheet "rosters" of (1) youth/parent and (2) mentor data; created by AIR, updated at each site

+

**SHAREPOINT**

AIR-hosted, online repository of Excel rosters and scanned/PDF youth/parent and mentor files (e.g., consent forms, survey cover sheets)

**REDCAP**

Vanderbilt University-created, AIR-hosted, online database of complete youth and mentor data (including files)

WOW, THAT'S A LOT OF DATA

# THE EVOLUTION OF DATA COLLECTION

## FUN WITH SPREADSHEETS

64 spreadsheets  
updated by 32 sites,  
managed by 5 data  
managers

Site staff capacity for  
Excel varied widely

Version control was  
difficult to maintain

WOW, THAT'S A LOT OF DATA

# THE EVOLUTION OF DATA COLLECTION

## MORE FUN WITH SPREADSHEETS (AND PDFs)

A web-based home for Excel files, **BUT...**

SharePoint maintains files similar to Windows Explorer

Multiple folders in multiple libraries were needed

Site staff faced challenges accessing the site and uploading forms in a timely manner.

Data managers struggled to monitor data uploads from 32 sites.

WOW, THAT'S A LOT OF DATA

# THE EVOLUTION OF DATA COLLECTION

AND THEN THERE WAS...

WOW, THAT'S A LOT OF DATA

# REDCAP

REDCap is a secure web application for building and managing online surveys and databases.

It is composed of a Consortium of 1,205 active institutional partners in 86 countries.

To learn more, visit <http://www.project-redcap.org/>

REDCap™

WOW, THAT'S A LOT OF DATA

# REDCAP IS USEFUL FOR MULTI-SITE EVALUATIONS

1. Collaborative access to data
2. User authentication and role-based security
3. Quick reports of data points
4. Real-time data validation, integrity checks and other mechanisms for ensuring data quality
5. Document storage and sharing
6. Central data storage and backups
7. Data export functions for common statistical packages
8. Data import functions to facilitate bulk import of data from other systems

WOW, THAT'S A LOT OF DATA

## HOW WE USE REDCAP

Separate mentor and youth case management (originating from the same place)

Site-specific (all 32!) case management (originating from the same place) with controlled access—each agency can only see their own data)

Data fields (60-70 of them) **AND** files uploads (e.g., consent/assent forms, survey cover sheets, incentive claim forms)

Site- and AIR-initiated data imports for large-scale changes, data exports, data reports, and data visualizations to monitor data entry and gaps (e.g., missing and erroneous data)

WOW, THAT'S A LOT OF DATA

# REDCAP DATA REPORTS

Snapshots of  
mentor and youth  
enrollment,  
matches, and  
closures

Mentor, youth, and  
parent/caregiver  
survey completions

Missing and  
erroneous data  
(with direct link to  
corrections)

Site-  
requested/specific  
reports  
(e.g., number of 14-  
year-olds enrolled)

---

WOW, THAT'S A LOT OF DATA

## LESSONS LEARNED FROM USING REDCAP

**Significant benefits:** Using a dynamic data collection system supports data quality.

**A flexible system for efficiency:** REDCap has continuously evolved to meet the needs of the research team and the sites.

**Training and technical assistance to ensure data quality:** MEDP sites vary widely in their capacity to enter and upload data in a timely and complete manner.

**Ongoing monitoring:** Identifying gaps in data entry and communicating them timely is key to working with site staff who have many other demanding tasks of the initiative.

**"COULD YOU FOLLOW UP JUST ONE MORE TIME": WORKING WITH PRACTITIONER PARTNERS TO ACHIEVE HIGH RESPONSE RATES FOR FOLLOW-UP SURVEYS IN A LARGE-SCALE, SITE-BASED EVALUATION PROJECTS**

---

COULD YOU FOLLOW UP JUST ONE MORE TIME

## RELIANCE ON SITE-LEVEL DATA COLLECTION

### THE EVALUATION TEAM RELIES ON AGENCY STAFF TO:

Conduct consent/assent and collect signed forms

Administer/facilitate baseline, post-training, and follow-up surveys

Detail mentor training, match activities, and match support

Collect school and juvenile justice records/data

---

COULD YOU FOLLOW UP JUST ONE MORE TIME

# RESEARCH—PRACTITIONER PARTNERSHIPS

## MENTORING AGENCIES

32 separate agencies  
spread across 13 states

Some coordinated by a lead  
agency/coordinator

## EVALUATION TEAM

5 Data Managers, each  
assigned to 3 collaboratives

4 Senior Design Team  
Members

COULD YOU FOLLOW UP JUST ONE MORE TIME

## DATA COLLECTED TO-DATE

	Current	Estimates
Mentor Baseline Surveys Completed	2,523	?
Mentor Post-training Surveys Completed	645	?
Mentor Follow-up Surveys Completed	127	2,400
Youth Baseline Surveys Completed	2,184	2,400
Parent Baseline Surveys Completed	2,004	2,400
Youth Follow-up Surveys Completed	40	2,400
Parent Follow-up Surveys Completed	26	2,400
Number of Matches	1,921	2,400
Number of Matches Closed	165	?
Number of Rematches	54	?

---

COULD YOU FOLLOW UP JUST ONE MORE TIME

## THE TROUBLE WITH FOLLOW-UP SURVEYS

Baseline surveys were required for match initiation

**Mentoring relationship is the incentive**

Initially there were no incentives for follow-up surveys

---

COULD YOU FOLLOW UP JUST ONE MORE TIME

## CHALLENGES TO COLLECTING FOLLOW-UP SURVEYS

Timing varies from site-to-site Some mentors don't attend/complete training

Must be administered to both Enhancement and Control mentors

Lack of understanding of/regard for importance of survey

---

COULD YOU FOLLOW UP JUST ONE MORE TIME

## CHALLENGES TO COLLECTING FOLLOW-UP SURVEYS

Completed as soon as the match ends

Some matches end on “bad terms”

The survey is long and there’s no tangible incentive

Group-based mentors must complete multiple surveys

---

COULD YOU FOLLOW UP JUST ONE MORE TIME

## CHALLENGES TO COLLECTING FOLLOW-UP SURVEYS

Completed at the 12- (and 18-month) mark of initial match

Some matches end long before 12 months

Some matches end on “bad terms”

Some families withdraw from program and/or move away

---

COULD YOU FOLLOW UP JUST ONE MORE TIME

## SUPPORTS TO INCREASE RESPONSE RATES

Added incentives for parents

Close monitoring of survey completion in REDCap

Easy-to-administer follow-up survey administration packets for site staff

Availability of surveys in multiple formats (e.g., hardcopy, online)

Surveys translated to multiple languages for parents

AIR will take on data collection when staff efforts have not succeeded

---

COULD YOU FOLLOW UP JUST ONE MORE TIME

## LESSONS LEARNED FROM FOLLOW-UP SURVEYS

The evaluation team knows how important all surveys are **but the mentors (and the sites) don't always know**

Flexibility may be required **to find ways to provide tangible incentives when initially there were none**

Sites with the most in-person interaction with mentors **have the highest completion rates**

Setting clear expectations for mentors early **results in higher completion rates**
